Beloved,

Janet and I want to welcome you to our online newsletter. We thank you so much for joining with us as we seek to build the Kingdom of God together. We trust that this newsletter will be a source of blessing for you and will also help you keep in contact with us. We value your input, your suggestions, your prayers and your support. So please stay in touch with us.

Much Shalom and Many Blessings!! ~ Dr. Howard Morgan

China Report

Because of the sensitive nature of this report, I am being brief and purposely leaving out specific details.

We met with leaders and members of various underground churches who had gathered for several days of special meetings. In the middle of the first day of meetings, just before I was to begin my first session, we were told that **plainclothes police** had arrived and we had to leave. I then had my first lesson in how the Church in China operates because within a few minutes, literally, I was told to go ahead and begin my session. When I walked to the front of the room my translator whispered in my ear that a policeman was in the room.

So many thoughts immediately flashed through my mind at that moment. "What can I say or not say now?" I did not want to say anything which might endanger the believers and cause arrests or even imprisonment. "Which one was the policeman?" As a foreigner I knew he would be paying special attention to what I was speaking about. Ministering to believers about the things of God and the Kingdom is one thing, ministering to them while having a **government spy** listening is a quite another. The Chinese government believes we represent a serious threat to their authority and I did not know how the policeman would react to my teaching on being a disciple of God's Kingdom and its King.

I also thought about the possible implications for us as foreigners. They could detain us, confiscate our passports, deport us and put us on a black list preventing our return in the future.

As all these thoughts flashed like lightning through my mind, I surprised myself by asking my translator if I could record the message. I thought to myself, "Why are you asking that? There is a spy in the room. Why would you want to record the evidence that could possibly be used by the police?" But I also knew that if it was not recorded, it could have no future benefit for other believers in China. I then got my second lesson in how the Body of Christ in China operates. My translator looked at me with great peace and assurance and said, "Of course, that was no problem." I realized that having the police watch them is a normal occurrence and they are not bothered at all. They do not take unnecessary risks, but they do not let the government stop them! (We did record it and it is now being circulated to the Body there.)

I had never been in this position before and upon reflection of the moment realized that the Lord was giving me a test. Not a test of faith because my faith was not an issue. **It was a test of my response.** How would I respond to this situation, and how would I let it affect my normal teaching ministry? All the previous years of learning how to flow in my prophetic teaching anointing served me well at that moment. I simply did what I always do, open my spirit and then open my mouth! I was cautious not to mention the government or any government policies.

I started by speaking about being born-again and receiving a new heart. This was especially for the policeman because perhaps the Lord was drawing him and this was good for him to hear and hopefully understand. Then I continued to speak about discipleship. This message will be available for you to order. Remember it is in English with Chinese translation.

The next day I spoke in the morning session about the Love of God. Immediately after the meeting as I was uploading the recording to my translator's laptop, the police arrived again. One of our team called to me quite adamantly, "**Howard, we have to leave now!**" I pulled the recorder out of the laptop (the message was not damaged) and we dashed to our waiting van. Our driver took us on a long back road journey, making sure we were not being followed. We then met up with some of the believers in a bus they rented and continued to

minister on the bus. We ended up in a park that had a building with seats and continued to minister there. In the evenings, small groups of the believers came to our hotel rooms where we continued to teach and pray and minister to them.

After we left this city, we drove into small villages where we also met with believers and ministered in various gatherings and our hotel rooms. We continued to be cautious because as foreigners we always attracted attention.

The believers in China are hungry for teaching. They always expressed their gratitude for the “American teachers” who had come such a long way to encourage and instruct them. We also met the leader of an **underground seminary** who gave us an open invitation to teach at his school.

I want to thank you for praying for us and investing in our ministry. Your seeds are going to bear much fruit in the Body of Christ in China and I thank you for joining us in prayer over the messages that are now being circulated. Only eternity will show all the fruit of this journey.

Ministry Trips 2009

We began this year with a trip to the San Jose, California area where we met with a new group of saints who earnestly desire to be disciples of the Kingdom of God. As they pursued their vision, they began to encounter resistance from the *Spirit of Religion* and the Lord arranged for some of my CD's to find their way to them. These messages gave them much encouragement and information in how to recognize and overcome the activities and strategies of this demonic spirit. We began a phone and email relationship as I helped them walk through various battles. After receiving a word from the Lord about organizing a series of meetings to speak publicly and openly about the *Spirit of Religion*, they invited us to come there and minister. The meetings were excellent and the Lord, as He always is, was faithful to speak to the issues they were facing. It is always such a blessing to me to watch the Lord impact and change lives through His anointing. We are always humbled by seeing how He uses human vessels to change lives. These meetings are on DVD's that are now available.

Instead of ministering in the UK in February as we have done for the last several years, we felt led to minister in the greater New York City area. It is a personal blessing for us to be back in our home town and to be able to spend time with our middle daughter Melanie, who is a stage manager on and off Broadway. We had a full itinerary of evening meetings and sharing daytime meals with many different individuals whom we are discipling. It is a great joy to help people in their walk with the Lord in whatever way we can. We are so blessed when we see God's children not only discover their calling and destiny but begin to walk in it and grow and mature in their ministries. These ministries are not limited to traditional forms, but are expanding into new areas of influence in the marketplace, the arts and media.

On a personal note. I met a first cousin in Manhattan who I had not seen in 50 years. We

had a wonderful time sharing with each other and exchanging old family photographs. He told me he was an atheist, but he and his girlfriend came to hear me speak at one of the meetings. So please pray for Arnold and Abby.

Another of our disciples is now an associate pastor of a church in Ogden, Utah. He arranged for a series of daytime meetings with Church leaders in that area as well as evening meetings. Many of these saints came out of Mormonism, and the pastor of our host Church, who was raised in a Mormon home, has just published a book to help Christians understand the book of Mormon. This Church is setting up a House of Prayer and is focusing on raising up disciples. Surrounded as they are by Mormons and the deeply engrained Mormon culture, they face unique challenges and opportunities for preaching the good news of the Kingdom. Being 'wise as serpents' we did not speak directly against Mormonism or Mormons. We spoke instead about the Kingdom and what the Bible teaches about who Jesus and the Holy Spirit are and what they want to do in our lives. We have received wonderful reports of those meetings and the fruit that is being born in those lives.

In April, we had our 8th annual "**Panim El Panim**" prophetic gathering of the tribe. Eight is the number of new beginnings and this was one of the themes the Lord emphasized. The other word He spoke to us was that regardless of what is going on in the world, we would be entering into '*a season of gold.*' We also had our first **Panim** wedding and the Lord used the ceremony to speak prophetically into everyone's life. He had everyone walk a *golden path*, prophetically symbolized by two golden silks laid out down the aisle, and stand under the **Chuppa** reaffirming their "Bridal Covenant" with the Lord. It was a powerful evening that we will not forget. If you have never been to a "**Panim El Panim**" gathering, we encourage you to prayerfully consider making plans to attend the 2010 gathering.

Upcoming Ministry

On Tuesday, June 30, I return to the UK for our annual summer tour. We look forward to seeing our friends there and also to ministering in new venues. We will also have our annual UK "**Panim El Panim**" prophetic gathering July 31 to August 2. For more information about this please click this link, <http://hmmin.com/binder2.pdf>, or go to our website www.HMMin.com and click on the UK Panim button.

In August we will go to the **Czech Republic** to speak at a week long conference. This will be the second time I have ministered there and look forward to what the Lord will do at those meetings. From there we will go to **Zilina, Slovakia**, to speak at an Israel Conference. Then we will go to Poland to speak at the annual "Holocaust to Hope" conference in Auschwitz. There we will lead another **Communion at the Selection Point** service. Those are some of the most profound times in the spirit that we ever have. What happens there is beyond words to describe. I can only encourage you to join us on one of these *prophetic journeys of redemption*. Last year we introduced Pastor Werner Oder to minister at the conference in Poland. He is the son of a Nazi SS war criminal. This year he will join us in Slovakia as well as Poland. He and his wife Avril pastor a church in Bournemouth, England, and also leads reconciliation ministry between Christians and Jews.

After Poland, we will go to Eastern Germany. **This will be our first time ministering in Germany.** A German brother who lives in Manchester, England, has been working with us and several churches there to set up an itinerary. These churches all have a heart for the Jewish people and the land of Israel. When they heard of our ministry in Auschwitz, they opened their doors to us. We know that these meetings could be very significant and have important ramifications, so please keep them in your prayers. If the Lord should show you anything concerning any of these trips and meetings, please share it with us.

It is a great comfort to know that you are praying for us and standing with us financially. We depend upon your generosity as you sow into the lives and ministries of people in these countries. We are so grateful for your support, for your prayers and for your love. Without you we could not do what we do. For your convenience, you can now make a donation directly on our website. Simply click on the link on the home page of our website, www.HMMin.com. Remember, as a supporter of our ministry, you share the reward for the fruit that is born in the Kingdom.

The Bible encourages us to **pray for one another** and I believe there is a power that is released when we carry other people to the Lord and not just focus on prayers for our own needs. I encourage you to test this in your own life. Regardless of your present situation, begin to pray for others. Pray for the nations, they are the inheritance promised to the Messiah in Psalm 2. Pray for us. See what will happen when you intercede for others.

We do pray for you, and if you write to us, we will pray specifically for the issues you tell us about.

Serving the King with You, ***Dr. Howard & Janet Morgan***
